

Hajj Registration & Package-Check Checklist

For Bangladeshi pilgrims · 2027 season status reviewed 18 October 2026 · English edition

CURRENT-SEASON STATUS

The MoRA 2027 circular summary supplied for this guide states that primary registration ran from 27 July to 24 September 2026 and that no extension was planned. That window has passed. Check the official Hajj portal for any later notice before acting. The direct circular URL was not available in the supplied source record.

What this checklist is—and is not

This is a URAL editorial aid, not a government form or a substitute for MoRA, e-Hajj or Saudi Ministry instructions. It intentionally does not state a current deposit amount or 2027 package price: the source packet contains conflicting BDT 30,000 and BDT 350,000 references and no 2027 package-price schedule. Do not use 2026 prices as 2027 quotes.

1. Registration and records

- ☐ Check the current registration status and instructions at hajj.gov.bd. Do not assume registration is open because an old page or agent says it is.
- ☐ Follow the current e-Hajj notice for each registration stage, payment amount and deadline. Pay only through the channel named in that notice; do not rely on a verbal promise or an old-season amount.
- ☐ After a bank deposit, obtain and keep the signed registration certificate described in the e-Hajj notice, together with the official receipt and your registration reference.
- ☐ A supplied 2027 passport-relaxation notice is described as allowing an expired passport for initial registration, with an updated passport required before visa issuance. Confirm the exact conditions and deadline in the official notice before relying on this exception.

2. Compare a government or private package before paying

The supplied sources do not establish 2027 package prices. Ask for the current season's official schedule and a written, itemized offer. Compare the same items across offers:

- ☐ Total payable in BDT, payment stages, deadlines, refund and cancellation terms.
- ☐ Airline, route, baggage conditions and whether the fare is included in the quoted total.
- ☐ Named hotels in Makkah and Madinah, room occupancy, dates, and the exact lodging/transport arrangement.
- ☐ Meals, Mina/Arafah services, ground transport, insurance, and any separate or optional charges.
- ☐ Agency name and licence details against the current official list; pay only to the named official account/channel and keep receipts.

If a seller quotes a package total, ask which official season package and included services it represents. Do not compare a government base amount with a private all-in quote as if they were equivalent.

3. Passport, health and permit checks

- ☐ Use the 2027 passport-relaxation notice only for the condition it expressly covers. Confirm passport validity and update deadlines before visa processing.
- ☐ Health requirements change by Hajj season. The Saudi MOH health document in the supplied source set is for 1447H/2026; it is not a 1448H/2027 health checklist. Check the current Saudi MOH and Bangladesh e-Hajj instructions for your season.
- ☐ Saudi authorities issued a 2026 “No Hajj Without a Permit” notice. Check the current 2027 permit and Nusuk credential instructions; do not assume a tourist, visit or Umrah visa is a Hajj permit.

4. Before you consider your registration complete

- ☐ Save copies of the current MoRA notice, registration confirmation, signed bank certificate, payment receipt and written package contract.
- ☐ Check that names and passport details match across the e-Hajj record, payment proof and travel documents.
- ☐ Recheck the official portal for extensions, corrections, health requirements and departure instructions before making non-refundable arrangements.
